

Economy Flat Pack Self-Tracking Trailers

- Self-tracking trailers follow in the exact path of the tractor
- Manoeuvre a train of several trailers down narrow paths, around corners and through entrances of potting sheds
- Trays are galvanised and very robust.

C-Mac trailers have been
in the nursery industry for
over 35 years

Economy Flat Pack

Self-Tracking Trailers

Corners of deck cut off to allow drainage

Advantages of C- MAC trailers

- ✓ Strong steel or alloy rims to carry heavy loads.
 - ✓ Drawbars pull on full width, not from centre of axle.
 - ✓ Unique pivoting system that doesn't need greasing or maintenance.
 - ✓ Galvanised deck and frame. allows transport of potting media and can double as a potting bench.
 - ✓ Corner sockets to allow fitting of accessories.
 - ✓ Solid decks prevent media falling through onto undercarriage, roadways and gravel beds.
- Minimises spreading of diseases when moving products or garden waste.
 - Prevents the spread of growing media with fertiliser that promotes weeds.
 - Prevents fertiliser from falling onto the trailer's undercarriage & hence minimises excessive rusting to the trailer.
