Deluxe Trailer Potting Station

Worrying about the ROI of purchasing a potting station? Would like to do potting up/manual potting at different locations? C-Mac's "Deluxe Trailer Potting Station" can give you all the benefits!

How does it work?

- Use a hopper as an add-on, to turn your trailer (C-Mac's deluxe self-tracking trailer) into a potting station
- Deluxe Trailer Potting Station is mobile and easy for moving around
- When potting is not needed, remove the hopper just to utilise the deluxe trailer
- Hopper is interchangeable between all trailers which have been made standard in welding fixtures by C-Mac for many years

Features

- Dimensions: 1.23m wide, 2.45m long, 0.54m high
- Weight: 80 kg (Lift on and off trailer with 4 persons easily).
- Capacity: 1m³ potting media storage
- Table Work Height: 85cm from ground

Please note:

Trailer Potting Station can only become an add-on to C-Mac's deluxe trailer, other trailers are not compatible.
